READYSET™

Scripps Health
ReadySet Effectiveness Study

Axion Health Advantage

Since its inception, Axion Health's employee and occupational health solutions have managed health data and services for tens of thousands of workers and volunteers. This includes a variety of government agencies, global enterprises, and hospital networks.

Axion Health's Web-based **ReadySet** platform streamlines program management with advanced workflow and reporting tools. Use of the ReadySet platform has shown to dramatically improve efficiency and effectiveness in employee health management.

ReadySet's secure platform efficiently gathers, processes, and analyzes data to reliably manage protocols, trigger clinically significant alerts and respond to emergencies. **ReadySet** is the only employee and occupational health software with the value of clinical decision support to help effectively determine clinical actions.

Scripps Health Challenge

Customer Need: Create an efficient, cost-effective employee flu program to improve program compliance for all populations and reduce workload.

Solution: Scripps Health partnered with Axion Health to implement the ReadySet employee well-being software solution.

Results:

- 98% vaccination compliance in 4 weeks
  Reduced campaign length by 66%

- 99% reduction of flu program paper creation
  Virtual elimination of paper filing

- Data entry reduced by 1.5 hours a day per staff member
  Staff efficiency increased

- 30% reduction in missing information as compared to paper records[1]
  Less follow-up required

- 35% reduction of record discrepancies as compared to paper process[2]
  Reduced errors

1 Salazar M, et al, Web-based electronic health records improve data completeness and reduce medical discrepancies in employee vaccination programs, *Infect Control Hosp Epdemiol, 2012 Jan;33(1):84-6.*

2 Salazar M, et al, Web-based electronic health records improve data completeness and reduce medical discrepancies in employee vaccination programs, *Infect Control Hosp Epdemiol, 2012 Jan;33(1):84-6.*

ReadySet Advantage

" As much as I appreciate the technical features of the ReadySet program, I appreciate most the customer service and support we have experienced."
- Linda Good, RN PhD
Scripps Health

ReadySet Advantage

"EHRs promise multiple benefits,

but we believe that one key

selling point is their potential

for preventing, minimizing, or

mitigating diagnostic errors"

New England Journal of Medicine, March 25, 2010
